Description:

OCZ OCZSSD2-1C128G 128gb 2.5 inch SATA2 solid state disk (SSD)
The OCZ Core Series delivers the performance and reliability of the latest SSDs at a 50% less price per gigabyte than other high speed offerings currently on the market.

OCZ Core Series Solid State Drives enable enhanced productivity in everyday computing and intensive multi-tasking applications. Perfect for notebooks, the Core Series is ideal for energy-efficient mobile computing to extend battery life, increase access time, and provide a durable alternative to conventional hard disc drives with superior shock resistance. High capacities and low power consuming NAND flash technology provide the necessary performance and battery life boosts generated by the proliferation of mobile gaming and new ultra-thin laptops. With fast access and seek times combined with excellent reliability, the OCZ Core Series SSDs are the answer for consumers demanding this latest storage technology.

The drives feature a durable yet lightweight alloy housing, and because OCZ SSDs have no moving parts, the drives are not prone to damage from common mishandling. Designed for ultimate reliability, these SSDs have an excellent 1.5 million hour mean time before failure (MTBF) ensuring peace of mind over the long term. All Core Series SSD drives come backed a two year warranty and OCZ's legendary service and support.

Core series SSD drives are available in capacities of 32GB, 64GB, and 128GB and deliver incredible 120-143 MB/s 80-93 MB/s read/write speeds and seek times of less than 0.35ms, making the Core series up to 10x as fast on a seek-time basis and up to 40% faster on a R/W basis that the best performing 2.5" HDDs on the market, all while consuming 50% less power

Features:

Technical Information:

- Available in 32GB,64GB,128GB capacities
- Read: 120-143 MB/sec
- Write: 80-93 MB/sec
- Slim 2.5" Design

Tape Backups
TV Tuners
USB / Firewire Devices
Video Cards
Video Games
Volume Discounts
Webcams / Conferencing
Wireless Networking

- 100.2 x 70 x 9.3mm
- Lightweight 77g
- Operating Temp: -10C ~ +70C
- Storage Temp: -55C ~ +140C
- Low Power Consumption
- Shock Resistant 1500G
- RAID Support
- MTBF 1.5 million hours
- 2 year warranty
